DOCTOR-PATIENT RELATIONSHIP IN CHIROPRACTIC
INFORMED CONSENT

CHIROPRACTIC

It is important to acknowledge the difference between the health care specialties of Chiropractic, Osteopathy and Medicine. Chiropractic health care seeks to restore health through natural means without the use of medicine or surgery. This gives the body maximum opportunity to utilize its inherent recuperative powers. The success of the Chiropractic Doctor's procedures often depends on environment, underlying cause, physical and spinal conditions. It is important to understand what to expect from Chiropractic health care services.

ANALYSIS

A Doctor of Chiropractic conducts a clinical analysis for the express purpose of determining whether there is evidence of Vertebral Subluxation Syndrome (VSS) or Vertebral Subluxation Complexes (VSC). When such VSS and VSC complexes are found, Chiropractic adjustments and ancillary procedures may be given in an attempt to restore spinal integrity. It is the Chiropractic premises that spinal alignment allows nerve transmission throughout the body and gives the body an opportunity to use its inherent recuperative powers. Due to the complexities of nature, no doctor can promise you specific results. This depends upon the inherent recuperative powers of the body.

DIAGNOSIS

Although Doctors of Chiropractic are experts in Chiropractic diagnosis, the VSS and VSC, they are not internal medical specialists. Every Chiropractic patient should be mindful of his/her own symptoms and should secure other options if he/she has any concerns as the nature of his/her total condition. Your Doctor of Chiropractic may express an opinion as to whether or not you should take this step, but you are responsible for the final decision.

INFORMED CONSENT FOR CHIROPRACTIC CARE

A patient, in coming to the Doctor of Chiropractic, gives the Doctor permission and authority to care for the patient in accordance with the Chiropractic test, diagnosis and analysis. The Chiropractic adjustment or other clinical procedures are usually beneficial and seldom causes any problem. In rare cases, underlying physical defects, deformities or pathologies may render the patient susceptible to injury. The doctor, of course, will not give a Chiropractic adjustment, or health care, if he/she is aware that such care may be contra-indicated. Again, it is the responsibility of the patient to make it known or to learn through health care procedures whatever he/she is suffering from: latent pathological defects, illnesses, or deformities which would otherwise not come to the attention of the Doctor of Chiropractic. The patient should look to the correct specialist for the proper diagnosis and clinical procedures. The Doctor of Chiropractic provides a specialized, non-duplicating health service. The Doctor of Chiropractic is licensed in a special practice and is available to work with other types of providers in your health care regime.

RESULTS

The purpose of Chiropractic service is to promote natural health through the reduction of the VSS or VSC. Since there are so many variables, it is difficult to predict the time schedule of efficacy of the Chiropractic procedures. Sometimes the response is phenomenal.

In most cases there is a more gradual, but quite satisfactory response. Occasionally, the results are less than expected. Two or more similar conditions may respond to the same Chiropractic care. Many medical failures find quick relief through Chiropractic. In turn, we must admit that conditions which do not respond to Chiropractic care may come under the control or helped through medical science. The fact is that the science of Chiropractic and medicine may never be so exact as to provide definite to all problems. Both have great strides in alleviating pain and controlling disease.

TO THE PATIENT

Please discuss any questions or problems with the Doctor **before** signing this statement of policy.

I have read and understand the forgoing.

COVID-19 INFORMED CONSENT TO TREAT

I understand that the novel Coronavirus (COVID-19) has been declared a global pandemic by the World Health Organization (WHO). I further understand that COVID-19 is extremely contagious and may be contracted from various sources. I understand COVID-19 has a long incubation period during which carriers of the virus may not show symptoms and still be contagious.

I understand that I am the decision maker for my health care. Part of this office's role is to provide me with information to assist me in making informed choices. This process is often referred to as "informed consent" and involves my understanding and agreement regarding recommended care, and the benefits and risks associated with the provision of health care during a pandemic. Given the current limitations of COVID-19 virus testing, I understand determining who is infected with COVID-19 is exceptionally difficult.

To proceed with receiving care, I confirm and understand the following (Initial in all seven places provided) **Initial Below**

- I understand my treatment may create circumstances, such as the discharge of respiratory droplets or person-to-person contact, in which COVID-19 can be transmitted. _____
- I understand that I am opting for an elective treatment that may not be urgent or medically necessary. I understand there are alternatives to receiving this care, which could including receiving care from another type of provider, or postponing care altogether at this time. However, while I understand the potential risks associated with receiving treatment during the COVID-19 pandemic, I agree to proceed with my desired treatment at this time. _____
- I understand due to the frequency of appointments with patients, the attributes of the virus, and the characteristics of procedures, I may have an elevated risk of contracting COVID-19 simply by being in a health care office. _____
- I confirm I am not experiencing any of the following symptoms of COVID-19 that are listed below:
  *Fever *Dry Cough *Sore Throat
  *Shortness of Breath *Runny Nose *Loss of Taste or Smell _____
- I understand travel increases my risk of contracting and transmitting the COVID-19 virus. I verify that I have NOT in the past 14 days I have not traveled: 1) Outside of the United States to countries that have been affected by COVID-19; or 2) Domestically within the United States by commercial airline, bus, or train. _____
- I am informed that you and your staff have implemented preventative measures intended to reduce the spread of COVID-19. However, given the nature of the virus, I understand there may be an inherent risk of becoming infected with COVID-19 by proceeding with this treatment. I hereby acknowledge and assume the risk of becoming infected with COVID-19 through this elective treatment and give my express permission to you and the staff at your offices to proceed with providing care. _____
- I have been offered a copy of this consent form. _____

I KNOWINGLY AND WILLINGLY CONSENT TO THE TREATMENT WITH THE FULL UNDERSTANDING AND DISCLOSURE OF THE RISKS ASSOCIATED WITH RECEIVING CARE DURING THE COVID-19 PANDEMIC. I CONFIRM ALL OF MY QUESTIONS WERE ANSWERED TO MY SATISFACTION.

I HAVE READ, OR HAVE HAD READ TO ME, THE ABOVE COVID-19 RISK INFORMED CONSENT TO TREAT. I APPRECIATE THAT IT IS NOT POSSIBLE TO CONSIDER EVERY POSSIBLE COMPLICATION TO CARE. I HAVE ALSO HAD AN OPPORTUNITY TO ASK QUESTIONS ABOUT ITS CONTENT, AND BY SIGNING BELOW, I AGREE WITH THE CURRENT OR FUTURE RECOMMENDATION TO RECEIVE CARE AS IS DEEMED APPROPRIATE FOR MY CIRCUMSTANCE. I INTEND THIS CONSENT TO COVER THE ENTIRE COURSE OF CARE FROM ALL PROVIDERS IN THIS OFFICE FOR MY PRESENT CONDITION AND FOR ANY FUTURE CONDITION(S) FOR WHICH I SEEK CARE FROM THIS OFFICE.
